ABOUT ME

7 YEARS IN THE MAKING

I'm Luke Dillon, a Midlands-based event photographer & videographer with over seven years of experience capturing everything from high-energy award shows, business launches to four-day ice cream festivals and 4,000+ guests at the NEC.

Since 2018, I've had the pleasure of documenting incredible events across the UK and even into Europe, working with clients to tell their story through compelling visuals, whether that's in a single snapshot or a full event reel.

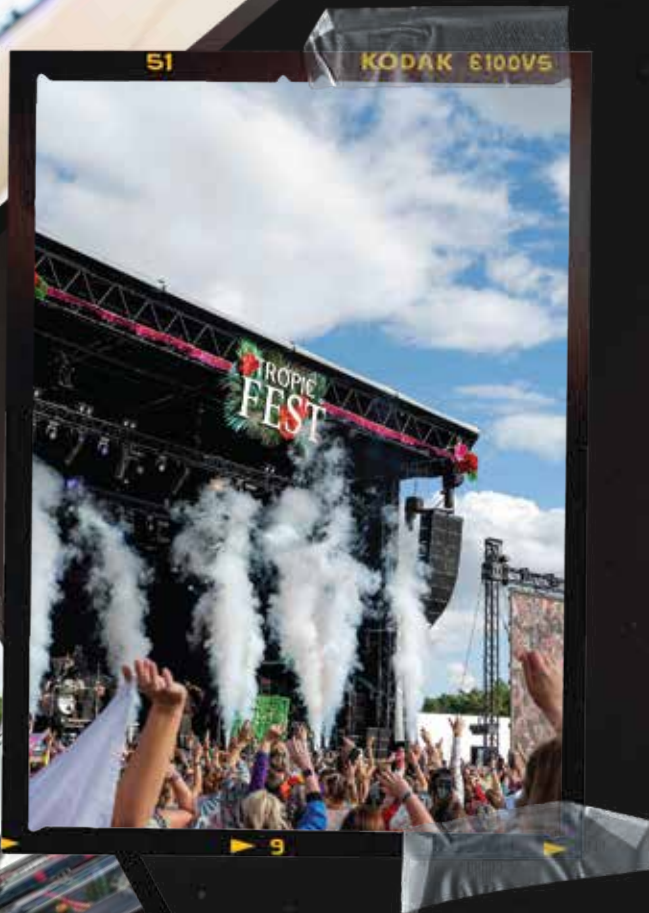

What you see here is just a glimpse of what I've created. You'll find even more of my work on my website and socials. And if there's something specific you'd like to see, just ask. I archive all my projects so I can show you the full journey, and just what can be achieved.
